break your limits – control the extreme

tenzone ultra

Break your limits - control the extreme! The adidas TenZone Ultra is the ultimate rubber for extreme situations! With the unique OCT (Optimized Contact Technology) you can trust your rubber one hundred percent also in extreme situations!

- ⊕ fast, medium hard rubber
- ⊕ inserted OCT increases control and precision
- ⊕ large-pored sponge offers a super-dynamic feeling
- ⊕ sponge thickness in mm: 1.8 / 2.0 / max.

AGF-12629 | TenZone Ultra

tenzone ultra sf **new**

The adidas TenZone Ultra SF is the soft solution for extreme situations. The rubber sheet with the unique OCT (Optimized Contact Technology) increases control and precision.

- ⊕ fast, soft rubber with improved control
- ⊕ inserted OCT increases control and precision
- ⊕ large-pored sponge offers a smashing sound
- ⊕ sponge thickness in mm: 1.8 / 2.0 / max.

AGM-14635 | TenZone Ultra SF

optimized contact technology

The OCT is improving the contact between rubber and ball and increases the precision in your game. You are able to play your best balls also in extreme situations because of the brand new developed OCT.

Learn more about the Optimized Contact Technology:
www.youtube.com/adidasTableTennis

tenzone

Strike harder! The TenZone turns your topspins into the most dangerous weapons.

- + fast and hard rubber
- + new pore structure provides additional energy
- + sponge thickness in mm: 1.8 / 2.0 / max.

AGF-10655 | TenZone

tenzone sf

Touch softer! The TenZone SF is the softer version of the TenZone.

- + medium hard rubber
- + new pore structure provides additional energy
- + more forgiving playing feeling through slightly modified pimple structure
- + sponge thickness in mm: 1.8 / 2.0 / max.

AGF-10661 | TenZone SF

p7

The spin weapon in the adidas rubber range!

- + especially developed top sheet designed to create optimal spin
- + medium hard sponge
- + combination of sponge and top sheet result in superior trajectory of every shot
- + sponge thickness in mm: 1.8 / 2.0 / max.

AGF-10688 | P7

p5

The P5 offers ultimate rotation performance with the highest rebound energy and speed!

- + hard, large-pored sponge
- + compact geometry of the top sheet
- + fits perfectly for spin and counterspin
- + sponge thickness in mm: 1.8 / 2.0 / max.

AGF-10613 | P5

p3

Spin, speed and precision!

- + medium hard, large-pored sponge supports extra-sharp topspins
- + softer sponge offers superb control
- + dynamic set-up perfect for all situations of intense matches
- + sponge thickness in mm: 1.8 / 2.0 / max.

AGF-10607 | P3

it's your game

r6

Dynamic, soft feeling with a great sound!

- + very soft sponge
- + generates traction and vigour during active play
- + superb control for passive play
- + sponge thickness in mm: 1.8 / 2.0 / max.

AGF-10625 | R6

r4

The allrounder in the adidas rubber range!

- + medium soft sponge
- + easy to handle but still generating excellent speed
- + fits perfectly for allround players
- + sponge thickness in mm: 1.8 / 2.0 / max.

AGF10619 | R4

blaze spin

The adidas Blaze Spin is the pimples out rubber that is focused on spin.

- + soft sponge with its innovative structure provides stability, control and speed
- + maximum energy through tension effect in the rubber sheet
- + recommended for skillful attacking players who like to vary their game and use different techniques
- + sponge thickness in mm: 1.8 / 2.0 / max

AGF-12605 | Blaze Spin

blaze speed

The adidas Blaze Speed is the pimples out rubber that is focused on speed and punch.

- + the soft sponge provides stability, control and speed with its innovative structure
- + maximum energy through tension effect in the rubber sheet
- + recommended for skillful aggressive players who want to attack with sharp smashes and awkward punch block
- + sponge thickness in mm: 1.8 / 2.0 / max

AGF-12611 | Blaze Speed

hypertouch

power in every stroke

5 + 2 veneers

The combination of the medium-hard Koto wood, the soft Kiri wood and the especially developed RX-Carbon provides the unique feeling of the new Hypertouch!

rx-carbon

RX-Carbon consists of hard black and soft red fibers. This mix speeds your game up, increases the energy efficiency and provides a natural touch.

climachill

cooling revolution

drop your temperature. raise your game.

climachill

feels cool on contact

Aluminium Cooling Spheres feel cool on skin upon contact. These aluminium dots are strategically located to correspond with the warmest area of the body.

groundbreaking climate control

SubZero yarn is a revolutionary flat yarn containing titanium. It maximises surface contact with skin, drawing heat away from the body faster than traditional round yarns.

superior breathability

Clima chill is by far the most breathable material we've ever created. These remarkably light and highly breathable fibres maximize air permeability like an open mesh, allowing for maximum ventilation and evaporation.

climachill FORMOTION®

pro 800

Equipped with a 25 mm chipboard plate, a solid foundation and under-carriage, four height-adjustable legs, and extra-wide profile frames adidas competition table PRO 800 offers outstanding balance and stability. In addition, the Pro 800 comes with an innovative feature: the permanently installed and highly-functional net. It remains mounted to the table, even in the up-folded storage position. The advantages are right on hand: Wear-out prevention, no storage room required, no individual adjustment necessary, instead – quality conservation and life prolongation. In combination with the comfortable Easy Folding System the permanent net supports the “ready-to-play” status of the Pro 800: Simply unfold – and play! To supply easy transport and storage and to protect the gym floors, the Pro 800 provides four rubber-coated and pivoting wheels. Thanks to these merits the table’s playability complies with the highest demands of the pro players. A blue surface, clear shapes and forms, an innovatively colored undercarriage and a fine finishing earmark the Pro 800’s high-end design. It will attract attention wherever it is unfolded.
